**Petition for Removal of a Holding of Abandonment Under 37 CFR 1.181(a)**

A Notice of Abandonment was mailed in the above-identified application on April 26, 2004 (Exhibit A).

A Notification to Comply with Requirements For Patent Applications containing Nucleotide and/or Amino Acid Sequence Disclosures was mailed on the above-identified application on September 15, 2003 (hereinafter referred to as the "Notice"). The Notice stated that the computer readable form of the sequence listing was found to be damaged and/or unreadable. A substitute computer readable form was requested. The Notice provided a period of two months from the mailing date to file a response (i.e. to November 15, 2003).

On Monday, November 17, 2003 (November 15, 2003 was a Saturday), the undersigned attorney sent, via first class mail to the Commissioner For Patents, P.O. Box 1450, Alexandria, VA 22313-1450, a substitute computer readable form of the sequence listing and a statement by Armin K. Bohmann stating that the contents of the paper or compact disc and computer readable form were the same and involved no new matter. A return stamped-self addressed post card, listing these items was included and stamped by the US PTO as being received on November 20, 2003 (see Exhibit B).

The undersigned attorney submits that a Response to the Notice was timely filed and that the holding of abandonment is in error should be removed. Also, because the substitute computer readable form of the sequence listing has apparently been lost by the US PTO, the undersigned attorney herein submits a copy of the sequence listing filed on November 17, 2003.

The undersigned attorney submits that this Petition for the Removal of a Holding of Abandonment Under 37 CFR 1.181(a) has been timely filed (i.e., less than two (2) months after the mailing date of the Notice of Abandonment).
